

4 Pack Vertical Storage Cylinder Rack with D.O.T. Air Storage Cylinders with Fill Station

(shown with 4 each 444cft @ 4500 psi D.O.T. air storage cylinders
P/N VR-1000-FP/4500-4)

The Max-Air VR-1000 Vertical Storage Cylinder Rack will accommodate (4) each of the 4500 psi, 5000 psi, 6000 psi or ASME high pressure air storage cylinders securely with handling/lifting options, featuring:

- Durable, powder coated steel frame
- Lifting steel eye bolts (2) - rated 2400 lbs vertical lift each
- Steel swivel/locking wheels—**optional**
- Powder coated U-Clamps to secure cylinders to the vertical storage rack
- 0~6000 psi HP reducing, self venting regulator with safety valve on outlet (regulates for variable pressures)
- Filling pressure control valve
- Storage pressure gauge 2 ½”
- Filling pressure gauge 2½” (to monitor SCBA or SCUBA individual filling pressure)
- Furnished with two (2) each fill outlet ports
- One inlet port from compressor
- Seamless .049 wall stainless steel hard plumbed, pigtail 6000 psi with T-fitting. Tubing fittings have (2) ferrule mechanical grip design, allows the front ferrule to seal while the back ferrule grips
- High pressure air storage cylinders D.O.T. or ASME Service pressures:
 - D.O.T.** (rupture safety disk in valves)
 - 444cft @ 4500 psi with CGA-347 On/Off Valve
 - 472cft @ 5000 psi with CGA-347 On/Off Valve
 - 509cft @ 6000 psi with CGA-702 On/Off Valve
 - ASME** (safety valve, On/Off valve, drain valve and gauge on cylinder)
 - 537cft @ 7000 psi
- Measures 26” x 25” x 74” (as shown)
- Weight 793 lbs. (as shown w/ 4 each 4500 psi cylinders)

Available in 6, 8 and 10 pack; vertical or horizontal
With or without Fill Station
